

Centennial Campus STEM FELLOWS

SPRING 2023 In-Person Weekly Schedule

ABOUT

- Chemistry, Biology and Math are subjects that can be confusing and stressful.
- The LC hosts additional support to help supplement your class with a program called STEM Fellows.
- STEM Fellows is an hour-long session that focuses on MAT 1340, BIO 1111, or CHE 1111 subjects guided by a tutor.
- Students will engage in a group tutoring session facilitated by a tutor, where they have the opportunity to ask their questions, obtain further resources and communicate with their fellow classmates.
