HELP SHAPE THE FUTURE OF PPSC

We invite you to take part in an important opportunity to shape the future of Pikes Peak State College's campuses and facilities. A Facilities Master Plan is a comprehensive roadmap that guides how classrooms, labs, common areas, and support spaces will grow and evolve to meet the needs of students, faculty, staff, and our community in the years ahead. Your feedback will directly inform this plan and help us better serve both current and future students.

SAVE THE DATE TO JOIN A FACILITIES MASTER PLAN PRESENTATION

We are working with **Steinberg Hart**, an internationally recognized architecture and planning firm with extensive experience in higher education. Their team will lead these sessions, share initial findings, and gather your input to ensure that the plan reflects the values and priorities of the entire PPSC community.
