

Pikes Peak Community College Registered Nurse Program Application Packet – Fall 2022

**PPCC Nursing Department
Center for Healthcare Education & Simulation
CHES Building
1850 Cypress Semi Drive
Colorado Springs, CO 80921
(719) 502-3450
Nursing.ppcc@ppcc.edu**

The Associate Degree in Nursing (ADN) Program at Pikes Peak Community College has been approved by the Colorado State Board of Nursing. Pikes Peak Community College is accredited by the Higher Learning Commission and is a member of the North Central Association, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2504, (312) 263-0456.

Pikes Peak Community College Nursing Program is accredited by the Accreditation Commission for Education in Nursing, Inc. Formally National League for Nursing Accrediting Commission, Inc. (NLNAC). Accreditation Commission for Education in Nursing, Inc. 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404-975-5000, www.acenursing.org.

Please note that the PPCC Nursing Program is a Full-Time Program that may require attendance in lecture or lab Monday through Friday at any time from 8AM to 8PM. Clinicals may be assigned during day, evening, overnight hours and there is a possibility of weekend clinical assignments. This will require the ability to maintain a flexible schedule from any applicant.

Accommodations for work or personal schedules cannot be guaranteed.

Students applying to the Pikes Peak Community College Nursing Program **must be in good standing with the College**. This includes having no academic or financial holds on one's accounts with PPCC.

Students interested in the Associate Degree Nursing (ADN) Program and the LPN Exit Option will need to complete all of the following steps and must be 18 years of age at the time and date of submission of this application to be considered for admission into the Nursing Program.

Pikes Peak Community College

Registered Nurse Program

The application period is **May 23, 2022**, at 09:00 a.m. through **June 3, 2022** at 12:00 p.m. for the cohort starting fall 2022.

Application Submission is not a guarantee of acceptance into the Nursing Program.

*Candidate **MUST** be 18 years of age, or older, at the time and date of application submission.*

Upon successful completion of the Registered Nurse (RN) Program at Pikes Peak Community College, the student will earn an Associates of Applied Science Degree from the college and will be eligible to sit for the state examination (NCLEX-RN) for licensure as a Registered Nurse.

This Program packet is published for informational purposes only. The information in this packet is not to be regarded as an irrevocable contract between the student and the Program. The Program reserves the right to change, at any time without notice, Program completion requirements, fees and other charges, curriculum, course structure and content, and other such matters as may be within its control, notwithstanding any information set forth in the Program information packet in accordance with Pikes Peak Community College policies and procedures.

This packet includes the following information and forms needed to complete the application process for the Nursing Program:

- Initial application procedure and requirements, including prerequisite courses, the admissions process and other details
- Explanation of provisional acceptance status
- Program course, timeline, and time commitment
- Standard skills required for all health care programs
- Professional behavior in clinical settings
- Costs associated with the Associates of Applied Science Degree in Nursing (ADN)
- Forms to be completed

Admission to the Nursing Program is through the Pikes Peak Community College Nursing Department, located at the Center for Healthcare Education and Simulation (CHES) Building at 1850 Cypress Semi Dr., Colorado Springs, CO 80921. The Nursing Department main phone number is (719) 502-3450.

Information about the Nursing Program can be obtained by viewing the **Nursing Information Session on link <https://www.ppcc.edu/degrees-certificates/nursing/ADN/nursing-information-session>**. If you have any further questions after viewing the video session, please call (719) 502-3450 or email **Nursing.ppcc@ppcc.edu**.

For specific questions related to the Fall 2022 application process please contact Amanda Morgan, Instructional Coordinator for the Nursing Department at (719) 502-2469, amanda.morgan@ppcc.edu.

Note: It is the student's responsibility to ensure that all steps have been completed and that all information has been received. Students who submit **incomplete information** will not be considered for placement in the Nursing Program for that application cycle.

Application Requirements

Students interested in the Associate Degree Nursing (ADN) Program need to complete all the following steps to be considered for admission.

Candidates **MUST** be 18 years of age, or older, at the date and time of application submission.

Deadline for submission is June 3, 2022, at 12:00 p.m.

* - Steps 1 & 2 are for NEW students. If you are already enrolled at PPCC, you do not need to re-enroll, or re-submit transcripts if already submitted.

* **Step 1** _____ *Fill out Pikes Peak Community College Admission Form* in the Admissions office at one of the three campuses, or at [Admissions Application](#).

* **Step 2** _____ *Request copies of official transcripts* (colleges attended other than Pikes Peak Community College) be sent to: Records@ppcc.edu --OR-- submit transcripts to:

RECORDS OFFICE
Pikes Peak Community College
5675 S. Academy Blvd.
Colorado Springs, CO 80906
(719) 502-3000

If you have already submitted your transcripts to PPCC, you do not need to repeat this step. Please note: You will still need to include UNOFFICIAL copies of transcripts of any college attended (including from PPCC) with Nursing Program application.

Step 3 _____ *Watch the Nursing Information Session video* to learn more about the requirements for applying and print the verification form as instructed on the video. You must have the Information Session Verification Form completed and attached with the required application packet forms.

Step 4 _____ *Complete the following pre-requisite courses* with a minimum combined GPA of 2.5:

- ENG 121 English Composition (must be current to within most recent 15-year period)
- PSY 235 Human Growth and Development (must be current to within most recent 15-year period)
- BIO 201 Human Anatomy and Physiology I (must be current to within most recent 7-year period)
- BIO 204 Microbiology (must be current to within most recent 7-year period)

All Biology (BIO) prerequisites must be completed within the most recent seven-year period prior to entry into Colorado Community College System (CCCS) Nursing Programs. **No more than one grade of “D” or “F” allowed in any of the 200 level BIO courses that are required for the Nursing Program in the past seven years.**

Students accepted into the Nursing Program must maintain a “C” or better in each required course (nursing and non-nursing). MAT 103 and BIO 202 must be completed by the end of the 1st bimester, BIO 216 must be completed by the end of the 2nd semester. These courses must be successfully completed as listed in the Associate Degree Nursing Curriculum to progress in the Nursing Program.

Application Requirements, continued

Step 5 _____ *Complete the Nursing Assistant (NUA) coursework within the CCCS System* OR have an active Colorado CNA certificate. (If Nursing Assistant Certificate is obtained through a private company or through an out-of-state institution, student must obtain an active Colorado CNA certificate). The student must provide the certificate of completion for the Nurse Aid course work:

- NUA 101 Certified Nurse Aid Health Care Skills
- NUA 170 Nurse Assistant Clinical Experience
- NUA 171 Advanced Nurse Aide Clinical

COVID-19 INFORMATION: For students who have completed the nurse aid course work at a facility outside of PPCC, and have not been able to test for their CNA license due to COVID-19, applications for the Nursing Program will have the following rules:

- The student must provide the certificate of completion for the Nurse Aid course work with his or her application

Step 6 _____ *Take the Test of Essential Academic Skills (TEAS)*, (see information below regarding remote testing through atitesting.com.) The Adjusted Individual Score (the overall score), Reading Score and Mathematics Score must be at or above the current National Mean, **as noted on the student's individual final TEAS report**. Applicants may take the exam a maximum of 2 times in the 12 months prior to application. An example of the TEAS score sheet, called the Individual Performance Profile, is provided on page 16. This is the score sheet students must provide with their application.

COVID-19 INFORMATION: For students that need to complete their TEAS exam to apply, the PPCC Testing Center secured the option for remote testing through the ATI testing platform. If you need to schedule the TEAS exam or you need directions and information about the remote testing option, please go to <https://www.ppcc.edu/testing-center/certification-testing>. There is an additional \$5 charge to take the TEAS exam remotely in addition to the cost of the exam.

Step 7 _____ *Include transcripts from every college or university you have attended* including PPCC. Applicants are required to submit unofficial transcripts from **ALL** previous college course work, including Pikes Peak Community College (do not include high school transcripts). The PPCC transcript **MUST** show **ALL** prerequisite courses, including those transferred from another college.

- We can accept unofficial transcripts.
- We **will not** accept applications that do not include transcripts from **all** previous colleges or universities attended.
- **DO NOT** highlight or mark your transcripts. Marked or highlighted transcripts will be refused, and we will have you reprint the transcripts.

Step 8 _____ *Complete ADN application form* on page 18 of this packet. Application must be returned to the Nursing Office located at the Rampart Range Campus at 2070 Interquest Parkway, Colorado Springs, CO 80921 in E213 for summer 2022 only. Hand delivery is required. The Nursing Department is not responsible for misplaced application materials or failed delivery of application materials.

APPLICATION COMPLETION INSTRUCTIONS:

- 1. Page 18 MUST be completed in its entirety.** If there are blank spaces, your application will be considered incomplete and **will not** be accepted.
- 2. All required documents and forms MUST be included with application packet,** or the packet will be refused.
- 3. All required documents and forms MUST be completed to the satisfaction of the staff/faculty member reviewing the packet** or the packet will be refused. The packet may be refused because a form is incomplete, a TEAS score isn't high enough, or any number of other reasons. If your packet is returned or refused, you will be told what steps you need to take to correct the issue.

Any student who has not been successful in another Nursing Program within the past 5 years will not be eligible to apply to the PPCC Nursing Program; your application will be denied.

Student may not have a current active RN License in Colorado or any other state.

Applicants who have completed steps **1 to 8** will have their file reviewed by the Nursing Program Admissions Committee. **The application deadline is June 3, 2022, at 12:00 p.m. The Nursing Department will NOT accept any additional application materials after the deadline.**

Notification letters will be sent in via student email addresses to applicants after the Admissions Committee has reviewed all applications. Please note that inquiries about the status of an application before the scheduled notification period will only slow down the process. Pay close attention to the Nursing Department website for updates on the status of the applications process and dates for emailing, notifications, etc. Website: www.ppcc.edu/degrees-certificates/nursing/adn/nursing-application

The Pikes Peak Community College Registered Nursing Program does not operate on a waitlist.

**All Decisions made by the Admissions
Committee are FINAL.**

Competitive Ranking Process

Provisional admission is based on a merit evaluation of GPA in the prerequisite courses and previously awarded degrees. Applicants meeting all admission criteria will be ranked on a point system. A maximum of 42 points will be awarded on the following criteria:

- 1. GPA from the 4 required prerequisite courses, a minimum of 2.5 and a maximum of 4.0 (25-40points awarded).**
 - A. ENG 121 English Composition I (3 Credits)
 - B. PSY 235 Human Growth and Development (3 Credits)
 - C. BIO 201 Human Anatomy and Physiology I (4 Credits)
 - D. BIO 204 Microbiology (4 Credits)

- 2. A previously awarded degree** (Associates, Bachelors, Masters, etc.) from a regionally accredited institution. Applicant must include with the application a copy of the degree. Points will only be awarded for one degree, regardless of how many degrees have been earned (**2 points awarded**). If the degree was issued in a language other than English, the degree must be professionally translated and notarized, and the translator's credentials included with the application.

GPA will be considered as the first criteria based on the number of applicants and the number of slots available. Competitive Ranking is based on a maximum of 42 points with two of the points awarded for a degree from a regionally accredited institution. In case of multiple applicants with the same number of points, selection will be for the applicants with the highest GPA and those that had his/her application turned in first.

For example: if there are six slots left to fill and eight applicants that are all Competitively Ranked at 3.914 GPA, we will place all the remaining applications in the time and date order in which they were received. The first six applications that were received will fill the six open slots. The remaining two applicants may have the option of becoming alternate position holders for the Nursing Program if the opportunity arises.

PLEASE NOTE: For the purposes of the Nursing Program, students that have taken either (or both) of the BIO courses more than one time will have the letter grades from their first two attempts at the course(s) in the current seven-year period averaged to receive the final letter grade for the course. The Nursing Department will be averaging the BIO grades only.

What Else Can I Be Doing?

The following courses are not required to apply to the Program but may be completed prior to beginning the Nursing Program. These courses ARE required for completion of the ADN Program and may be taken before entry:

MAT 103	Math for Clinical Calculations	(3 credit hours)
BIO 202	Human Anatomy & Physiology II	(4 credit hours)
BIO 216*	Pathophysiology (*prerequisite BIO 202)	(4 credit hours)
Elective	Humanities/Social Science	(3 credit hours)

The Nursing Department has found that the following course work is helpful to those applying to the Nursing Program, but these courses are NOT required to apply to the Nursing Program:

- Phlebotomy Program courses
- Medical Terminology
- Human Nutrition
- Emergency Medical Technician Program courses

Provisional Acceptance

The letter of provisional acceptance will be emailed to candidates that are provisionally accepted into the Nursing Program. Candidates that are provisionally accepted will receive a packet along with the letter of provisional acceptance. That packet will include the following:

RETURN FORM

- Candidates are expected to sign and return this form showing that they either accept or decline the offered provisional position with the PPCC Nursing Department. The Return Form must be returned by the date marked or it is assumed the candidate is declining his or her provisional position. An alternate candidate will be given the open position.

IMMUNIZATION AND HEALTH ASSESSMENT FORM

- The form shows all immunizations required by the PPCC Nursing Department and the form **MUST** be completed and signed by the candidate's healthcare provider.
- Candidates will be provided a date for when the form must be returned to the Nursing Department.

LISTS OF REQUIRED DOCUMENTS

- Dates will be provided for when all documents are required
- Information and instructions will be provided, if needed

INSTRUCTIONS FOR COMPLETING THE BACKGROUND CHECK

- Date for completion will be provided

INSTRUCTIONS FOR COMPLETING THE DRUG SCREEN PROCESS

- Date for completion will be provided
- Locations for completion of screening will be provided

LISTS OF IMPORTANT UPCOMING DATES

- A question-and-answer session will be held prior to the start of classes. Candidates will get the opportunity to meet the Associate Dean of the Nursing Program and the Program Assistant/Admissions Coordinator from the Nursing Program. Candidates will get many questions answered about what to expect, what to do about books, what to do about uniform/dress, etc. Applicants will also get to meet the rest of their cohort.
- Registration Event (see further information below)
- Success Workshop (see further information below)

CHECKLISTS TO BE SURE CANDIDATE IS ON TRACK

Final Acceptance into the PPCC Nursing Program is dependent upon the following requirements being completed:

REGISTRATION EVENT

A **mandatory** Registration Event will be held on **August 3, 2022** and all candidates must bring in the required documents and forms in order to be registered for the first year, first semester courses (1.1 NUR courses).

Candidates will meet several faculty members and get information on what their upcoming schedule might look like for the semester. It is at this event that candidates can move from the status of "Provisionally Accepted" to "Student Nurse" within the Nursing Program. See the next page for what is required for provisionally accepted candidates to become a Student Nurse.

DO NOT attempt to complete the background check or drug test before you have been provisionally accepted—you will only have to redo the background check and drug screening process at your own cost if you do anything outside of the Nursing Department's timeline.

SUCCESS WORKSHOP

Usually done the Thursday before the start of classes, a **mandatory Success Workshop** will be held. Nursing Program students from the 1.1 cohort will spend the day meeting faculty, obtaining information on what to expect from their NUR 1009 (Nursing Fundamentals) and NUR 1012 (Pharmacology) courses, learning about expectations for the Nursing Program, and exploring information PPCC as an institution. This is a full day, normally 0900- 1600 hours. You will need to plan for snacks, drinks, and lunch for yourself.

REQUIREMENTS FOR REGISTRATION EVENT

1. **Basic Life Support (BLS):** Must be done through the American Heart Association; no exceptions. Certification must be “Health Care Provider Professional” with “hands-on” training. Online BLS courses are not accepted as this must have hands-on skills check off.
 - a. Skills must be for adult, child, and infant.
 - b. If you are given a card, you must provide the Nursing Department a copy of the front & back of the card and the card must be signed. If you are provided an electronic copy of your BLS card, you must provide a copy of that electronic copy to the Nursing Department.
 - c. A BLS card is valid for two years. A candidate’s BLS **cannot** expire during an academic semester of the Nursing Program.
2. **Immunization and Health Assessment Report:** This ***must*** be completed by a healthcare professional. The applicant must also obtain the required immunizations to be fully accepted into the Nursing Program.
3. **Criminal Background Check & 10 Panel Drug Screen:** All students enrolled in health career programs with direct patient contact ***must*** be drug tested prior to beginning classes. Any student with **a positive drug screen** will be considered ineligible for the program and will not be allowed to reapply to the Nursing Program. **Dilute specimens are considered a provisional failed result.** The candidate has the option to repeat a dilute test at candidate’s own expense within 24 hours after notification by Human Resources.
 - a. All background checks & 10 Panel Drug Screens must be completed and cleared in order to continue in the Nursing Program.
 - b. Due to Nursing Program clinical facility contracts, previous background checks and drug screens (including those background checks completed for the Nursing Assistant Program) are not accepted for admission into the Nursing Program.
4. **Transcripts must be provided again from each college or university attended, including from PPCC:** staff and faculty must verify one last time that candidates have completed each prerequisite course and that any course that has been completed since the application process closed shows up on current transcripts.
5. **Print off any checklists that are provided** and bring them with you to the Registration Event
6. **Print off Order Confirmation page** proving completion of Background Check from CastleBranch
 - a. Candidates will be provided a copy of what this page looks like via email after the Q & A Session
7. **Print off Donor or Laboratory Copy page** proving completion of Drug Screening through Quest Diagnostics
 - a. Candidates will be provided a copy of what this page looks like via email after the Q & A Session
8. If anything else is required, candidate will be notified ahead of time

TECHNICAL STANDARDS POLICY

PPCC Nursing Student: Technical Standards/Essential Requirements Policy

1. **Disability Related Information** - Students are expected to participate fully in activities required by the Program. See the Essential Skills and Functional Abilities for Nursing Students.
2. Any student having a temporary medical condition that inhibits or restricts his/her activities should contact the Office of Accessibility Services (719-502-3333).
3. Should a student become unable to participate fully in the Program's activities, he or she may be granted an Incomplete or be administratively withdrawn. Questions regarding a grade of Incomplete or an administrative withdraw should be directed to the Nursing Department.

Students requesting reasonable accommodations should contact the Office of Accessibility Services at 719-502-3333. It is recommended students set up their initial appointment with Accessibility Services prior to starting the Nursing Program. Specific information regarding the accommodation process is available on the PPCC website. Accommodations may only be provided when the student provides the Accommodations Form from the Office of Accessibility Services to his or her individual faculty.

ESSENTIAL SKILLS AND FUNCTIONAL ABILITIES FOR NURSING STUDENTS

Individuals enrolled in the PPCC Nursing Program must be able to perform essential skills. If a student believes that he or she cannot meet one or more of the standards without accommodations, the student should request an ADA Interactive Session by contacting Human Resource Services at 719-502-2600.

FUNCTIONAL ABILITY	STANDARD	EXAMPLES OF REQUIRED ACTIVITIES IN CLINICAL AND LAB PRACTICE
Motor Abilities	Physical abilities and mobility sufficient to execute gross motor skills, physical endurance, and strength, to provide patient care. Lift and/or support 50 pounds.	Mobility sufficient to carry out patient care procedures such as assisting with ambulation of clients, administering CPR, assisting with turning and lifting patients, providing care in confined spaces such as treatment room or operating suite.
Manual Dexterity	Demonstrate fine motor skills sufficient for providing safe nursing care.	Motor skills sufficient to handle small equipment such as insulin syringe and administer medications by all routes, perform tracheotomy suctioning, insert urinary catheter.
Perceptual/Sensory Ability	Sensory/perceptual ability to monitor and assess clients.	<ul style="list-style-type: none"> • Sensory abilities sufficient to hear alarms, auscultatory sounds, cries for help, etc. • Visual acuity to read calibrations on 1 cc syringe, assess color (cyanosis, pallor, etc.). • Tactile ability to feel pulses, temperature, palpate veins, etc. • Olfactory ability to detect smoke or noxious odor, etc.

<p>Behavioral/ Interpersonal/ Emotional</p>	<p>Ability to relate to colleagues, staff and patients with honesty, civility, integrity and in a nondiscriminatory manner.</p> <ul style="list-style-type: none"> • Capacity for development of mature, sensitive, and effective therapeutic relationships. • Interpersonal abilities sufficient for interaction with individuals, families and groups from various social, emotional, cultural and intellectual backgrounds. • Ability to work constructively in stressful and changing environments with the ability to modify behavior in response to constructive criticism. • Capacity to demonstrate ethical behavior, including adherence to the professional nursing code and student code of conduct. 	<ul style="list-style-type: none"> • Establish rapport with patients/clients and colleagues. • Work with teams and workgroups. • Emotional skills sufficient to remain calm in an emergency situation. • Behavioral skills sufficient to demonstrate the exercise of good judgment and prompt completion of all responsibilities attendant to the diagnosis and care of clients. • Adapt rapidly to environmental changes and multiple task demands. • Maintain behavioral decorum in stressful situations.
<p>Safe environment for patients, families and co-workers</p>	<ul style="list-style-type: none"> • Ability to accurately identify patients. • Ability to effectively communicate with other caregivers. • Ability to administer medications safely and accurately. • Ability to operate equipment safely in the clinical area. • Ability to recognize and minimize hazards that could increase healthcare associated infections. • Ability to recognize and minimize accident hazards in the clinical setting including hazards that contribute to patient family and co-worker falls. 	<ul style="list-style-type: none"> • Prioritizes tasks to ensure patient safety and standard of care. • Maintains adequate concentration and attention in patient care settings. • Seeks assistance when clinical situation requires a higher level or expertise/experience. • Responds to monitor alarms, emergency signals, call bell from patients, and orders in a rapid effective matter.
<p>Communication</p>	<ul style="list-style-type: none"> • Ability to communicate in English with accuracy, clarity and efficiency with patients, their families and other members of the health care team (including spoken and non-verbal communication, such as interpretation of facial expressions, affect and body language). • Required communication abilities, including speech, hearing, reading, writing, language skills and computer literacy. • Communicate professionally and civilly to the healthcare team including peers, instructors, and preceptors. 	<ul style="list-style-type: none"> • Gives verbal directions to or follows verbal directions from other members of the healthcare team and participates in health care team discussions of patient care. • Elicits and records information about health history, current health state and responses to treatment from patients or family members. • Conveys information to clients and others as necessary to teach, direct and counsel individuals in an accurate, effective, and timely manner. • Responds to monitor alarms, emergency signals, call bell from

		<p>patients, and orders in a rapid effective matter.</p> <ul style="list-style-type: none"> • Establishes and maintain effective working relations with patients and co-workers. • Recognizes and reports critical patient information to other caregivers.
<p>Cognitive/ Conceptual/ Quantitative Abilities</p>	<ul style="list-style-type: none"> • Ability to read and understand written documents in English and solve problems involving measurement, calculation, reasoning, analysis and synthesis. • Ability to gather data, to develop a plan of action, establish priorities and monitor and evaluate treatment plans and modalities. • Ability to comprehend three-dimensional and spatial relationships. • Ability to react effectively in an emergency situation. 	<ul style="list-style-type: none"> • Calculates appropriate medication dosage given specific patient parameters in the minimum amount of time deemed necessary to promote best patient outcomes. • Analyzes and synthesize data and develop an appropriate plan of care. • Collects data, prioritize needs and anticipate reactions. • Comprehend spatial relationships adequate to properly administer injections, start intravenous lines or assess wounds of varying depths. • Recognizes an emergency situation and responds to quickly and effectively to safeguard the patient and other caregivers. • Transfers knowledge from one situation to another. • Accurately processes information on medication container, physicians' orders, and monitor and equipment calibrations, printed documents, flow sheets, graphic sheets, medication administration records, other medical records and policy procedural manuals.
<p>Punctuality/ Work habits</p>	<ul style="list-style-type: none"> • Ability to adhere to policies, procedures and requirements as described in the Nursing Student Handbook, PPCC Student Handbook, college catalog, and course syllabi. • Ability to complete classroom and clinical assignments and submit assignments at the required time. • Ability to adhere to classroom and clinical schedules. 	<ul style="list-style-type: none"> • Attends class and clinical assignments punctually. • Reads, understands and adheres to all policies related to classroom and clinical experiences. • Contacts instructor in advance of any absence or late arrival. • Understands and complete classroom and clinical assignments by due date and time.

TECHNICAL STANDARDS/ESSENTIAL REQUIREMENTS POLICY

Introduction

Pikes Peak Community College has adopted the following technical standards for admission, progression and graduation of all Nursing Program students in clinical courses involving direct client care. Candidates for these degrees must be able to meet these minimum standards, with or without reasonable accommodation, for successful completion of degree requirements.

Observation

The student must be able to observe lectures, demonstrations, research, and practice situations in nursing. She/he must be able to observe health assessments and interventions, diagnostic specimens and digital and waveform readings to determine a client's condition and the effect of therapy. Observation necessitates the functional use of vision, hearing, tactile and somatic senses.

Communication

A student must be able to communicate effectively in English with clients, teachers and all members of the health care team. He/she must communicate with clients to elicit information regarding history, mood and activity, and to perceive nonverbal communication. Communication includes speech, hearing, reading, writing and computer literacy. A student must be able to report to members of the health care team, express appropriate information to clients, and teach, explain, direct and counsel people. Examples of communication include ability to detect sounds related to bodily functions using a stethoscope, detect audible alarms generated by mechanical systems such as those that monitor bodily functions, fire alarms, call bells, ability to observe and collect data from recording equipment and measurement devices used in client care. Students need the ability to communicate with clients and members of the healthcare team in person and over the phone in a variety of settings, including isolation or the operating room where health team members are wearing masks or there is background noise.

Motor

A student must have sufficient gross and fine motor skills, physical endurance, physical strength, mobility, vision, tactile abilities and sense of smell to carry out nursing procedures and operate equipment safely. He/she must have sufficient motor function to elicit information from patients by observation, palpation, auscultation, percussion and other diagnostic maneuvers. A student should be able to do basic laboratory tests (e.g., using a glucometer, slide preparation) and perform patient care procedures (e.g., tracheotomy care, urinary catheterization, insertion of intravenous catheters, giving intramuscular and subcutaneous injections, and use of oxygen/respiratory equipment). He/she must be able to execute motor movements reasonably required to provide routine and emergency care and treatment including cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, and opening of obstructed airways. The student should be able to lift and/or support at least 50 pounds in order to reposition, transfer, and ambulate clients safely. Certain chronic or recurrent illnesses and problems that could interfere with patient care or safety may be incompatible with nursing education or practice. Some illnesses may lead to a higher likelihood of student absences and should be carefully considered.

Intellectual, conceptual, integrative and quantitative abilities

The student must be able to read and understand written documents in English and to solve problems involving measurement, calculation, reasoning, memory, analysis and synthesis. He/she must be able to synthesize knowledge and integrate the relevant aspects of a client's history, physical findings and diagnostic studies. The student must be able to use this information to develop a diagnosis, establish priorities and monitor treatment plans and modalities. In addition, he/she must be able to comprehend three-dimensional and spatial relationships.

Behavioral and social attributes

A student must have the capacity to demonstrate full utilization of her/his intellectual abilities, emotional stability, exercise good judgment under stressful, crisis and non-crisis situations and promptly complete all responsibilities pertinent to the diagnosis and care of clients in a variety of settings. The student must have the capacity to develop mature, sensitive, and effective therapeutic relationships with clients in a variety of settings and from different cultures.

Individual patient care must be performed regardless of the patient's race, ethnic group, age, gender, religious or political preference, ability to pay, sexual orientation, or diagnosis.

The student will be required to perform nursing care in many settings including acute care inpatient settings (e.g., medical surgical, obstetrics, psychiatric, pediatric) as well as outpatient settings (e.g. outpatient clinics, long term care facilities, schools, and homes). The student must have the ability to perform nursing care that may be outside his/her own personal level of comfort in these settings so that the patient's needs are a top priority. He/she must be able to tolerate physically and mentally taxing workloads and function effectively under stress. The student must be able to exhibit a level of consciousness and attentiveness that guarantees patient safety. Examples of unacceptable compromise include excessive somnolence, memory impairment, or an inability to retain pertinent details of a patient's situation or to perform skills in a timely manner. As a component of nursing education, a student must demonstrate ethical behavior, including adherence to the PPCC Student Code of Conduct.

Although student safety is of utmost importance, students will be exposed to a variety of communicable pathogens and are expected to care for patients with communicable disease using appropriate standard precautions and/or guidelines.

Deficiencies in knowledge, judgment, integrity, or professional attitude may jeopardize patient care, and as a result could become grounds for course failure and possible dismissal from the Nursing Program.

What Nursing Courses Do I Take, and When?

1st Year, 1st Semester

NUR 1009	Fundamentals of Nursing
NUR 1012	Basics of Pharmacology
MAT 1120*	Math for Clinical Calculations (If not taken before entry into the Nursing Program)
BIO 2102*	Human Anatomy & Physiology II

1st Year, 2nd Semester

NUR 1006	Medical & Surgical Nursing Concepts
NUR 1050	Nursing Care of Obstetric and Pediatric Clients
BIO 2116**	Pathophysiology (If not taken previous to entry into the Nursing Program)

2nd Year, 1st Semester

NUR 2006	Advanced Concepts of Medical-Surgical Nursing I
NUR 2011	Nursing Care of Psychiatric Clients
NUR 2012	Advanced Concepts of Pharmacology

2nd Year, 2nd Semester

NUR 2016	Advanced Concepts of Medical-Surgical Nursing II
NUR 2030	Leadership, Management and Trends
Elective*	Humanities or Social Behavior Elective from GT pathways (If not taken previous to entry into the Nursing Program)

* May be taken before entry into the Nursing Program.

**BIO 2102 is a prerequisite for BIO 2116.

Students accepted into the Nursing Program must maintain a “C” or better in each required course (nursing and non-nursing). MAT 1120 and BIO 2102 must be completed by the end of the 1st bimester. BIO 2116 must be completed by the end of the 2nd semester. These courses must be successfully completed as listed in the Associate Degree Nursing Curriculum in order to progress in the Nursing Program.

**Colorado Community College
System Healthcare Programs
Disqualifying Criminal Offenses**

The following criminal offenses appearing on a criminal background check will disqualify an applicant for admission to CCCS Nursing, Emergency Medical Services (EMS), Fire Science, and Allied Health Programs.

- Any misdemeanor theft crimes in the 5 years immediately preceding the submittal of application.
- Crimes of violence (assault, sexual offenses, arson, kidnapping, any crime against an at-risk adult or juvenile, etc.) as defined in section 18-1.3-406 C.R.S. in the 7 years immediately preceding the submittal of application.
- Any offense involving unlawful sexual behavior in the 7 years immediately preceding the submittal of application.
- Any crime, the underlying basis of which has been found by the court on the record to include an act of domestic violence, as defined in section 18-6-800.3 C.R.S. in 7 years immediately preceding the submittal of application.
- Any crime of elder or child abuse, as defined in section 18-6-401 C.R.S in the 7 years immediately preceding the submittal of application.
- Any crime related to the sale, possession, distribution, or transfer of narcotics or controlled substances in the 7 years immediately preceding the submittal of application.
- Any felony theft crimes in the 7 years immediately preceding the submittal of application.
- Any offense of sexual assault on a client by a psychotherapist, as defined in section 18-3-405.S C.R.S in the 7 years immediately preceding the submittal of application.
- Crimes of moral turpitude (prostitution, public lewdness/exposure, etc.) in the 7 years immediately preceding the submittal of application.
- More than one (1) D.U.I. in the 7 years immediately preceding the submittal of application.
- Any felony homicide conviction (no time limit).
- Registered Sex Offenders (no time limit).
- Listed on the U.S. Treasury, Office of Foreign Assets Control (OFAC) or Specially Designated Nationals (SDN).
- Listed on Health and Human Services/Office of Inspector General List of Excluded Individuals/Entities or the GSA List of Parties Excluded from Federal Programs.
- Any offense in another state, the elements of which are substantially similar to the elements of any of the above offenses.
- If the investigation reveals information that could be relevant to the application, the designated individual responsible for background checks may request additional information from the applicant. The offense shall be reviewed on a case-by-case basis.
- Students who have successfully completed the terms of a deferred adjudication agreement will not be disqualified.
- If any applicant feels the criminal background check is inaccurate, they may appeal the decision and request a review with the specific community college applied at. It is the applicant's burden to produce substantial evidence that proves the crimes charged are incorrect.

CCCS March 2017
