

Spring 2026 – Nursing Student Clinical Rotations

PPSC Nursing Students,

All clinical compliance requirements for **BOTH BIMESTERS** must be completed by **December 17, 2025**. Non-compliance could result in removal from clinical rotations, which are mandatory for program advancement.

Required Immunizations & Documents (cannot expire within the semester):

- TB Test (annual)
- Tdap (every 10 years)
- Hep B (2-3 doses or titer)
- MMR (2 doses or titer)
- Varicella (2 doses or titer)
- Flu (annual – deadline was 10 Oct 2025)
- COVID-19 (currently not required; unvaccinated students must sign PPSC HS Statement)
- BLS/CPR – AHA Provider Level (every 2 years)
- Background Check (upon acceptance; redo if readmitted after an entire semester lapsed)
- Drug Test (upon acceptance; redo if readmitted after an entire semester lapsed)

Required Actions:

1. Upload all documents to **both** Castle Branch tracker and mCE
2. Monitor expiration dates and renew before deadlines
3. Contact Castle Branch customer support to reopen tasks without uploading features
4. Complete EPIC, Pyxis, and Alaris training within 7 days of receiving credentials (must monitor student email)

Important Notes:

- Clinical partners withhold approval for entire cohorts if anyone is non-compliant
- Removal from clinical rotations requires meeting with ADN Program Chair
- Faculty unavailable between semesters; check PPSC email for program communication
